ABOUT US

Blazing Soft is a video game development company that delivers games with a purpose, that inspire the leaders of tomorrow. Blazing Soft integrates fun with learning that takes into account environmental and social impacts. Blazing Soft offers a range of services including game design, build outsourcing, last man standing customizations, gamification strategies and integrations.

OUR OFFER

Blazing Soft creates educational gaming experiences that immerse the “console generation” in a joyful learning environment, which boosts classroom engagement and student performance. Blazing Soft also optimizes performance tracking and response for educators, to improve curriculum adaptation and the student-teacher relationship.

OUR CLIENTS

Blazing Soft has worked with recognized universities and with government in Colombia on a range of edutainment projects, as well as with international studios like Comet Entertainment in Toronto, Canada. Blazing Soft has recently established strategic development alliances in the USA and Germany

OUR OBJECTIVES

To partner with edutainment/edutech studios in Canada, and to build alliances with universities, colleges and other educational institutions that have experience or are seeking to implement gamification strategies in the classroom.
