ABOUT US

ISSP has developed and delivered cyber security services to companies around the world to help protect their data networks from continuously evolving cyber threats. With over 10 years of working in some of the most challenging cyber environments, ISSP has the depth and knowledge to provide safe and secure processes and systems for all types of networks.

OUR OFFER

ISSP provides cyber security services based out of a leading edge Security Operations Center (SOC) that provides a full suite of remote security services, including threat assessments of a company's current level of network & data protection, penetration testing, digital forensics & vulnerability assessments after attacks.

OUR OBJECTIVES

To partner with Canadian technology service providers to provide Managed Security Services as a trusted partner to grow revenue from the Canadian market.

OUR CLIENTS

ISSP works with a wide range of the top technology companies in the world, providing security services to global corporations in Europe, Asia and the US.
