ABOUT US

MAPGEOSYSTEM is a leading provider of geographic information system (GIS) services, focused on helping geospatial technology companies and 3D map developers with digital mapping, data processing, GIS data integration and 3D modeling services. MAPGEOSYSTEM's team of GIS specialists, cartographers and big data programmers has helped European GPS mapping companies as well as natural resource and agriculture companies to augment GIS staffing and increase project delivery capabilities.

OUR OFFER

MAPGEOSYSTEMS offers talented, experienced GIS development and programming services to companies that develop GPS, GIS, mapping or geospatial solutions for the natural resources, agriculture and 3D mapping sectors, leveraging 20 years of experience in successful project delivery.

OUR OBJECTIVES

To build alliances with Canadian geospatial solution providers that can leverage MAPGEOSYSTEM's extensive experience and knowledge in GIS system development.

OUR CLIENTS

MAPGEOSYSTEM has worked with world leading mapping & conservation companies such as Garmin, Bird Life International, DDS, Phoenix, IGO and GDI
