## ABOUT US

Freak Studio designs and creates cutting edge virtual and augmented reality environments, 3D content and sophisticated aerial shots for large real estate firms and as value added services to marketing agencies and digital content developers.

## OUR OFFER

Freak Studio creates augmented and virtual reality environments that help enhance the sales and marketing efforts of condominium developers and real estate firms and applicable digital agencies by offering high resolution 3D images and virtual tours of premium locations and office space.

## OUR CLIENTS

Freak has worked with local municipal governments, large construction companies such as Constructora del Toro and digital marketing agencies such as Vivelab Quindío.

## OUR OBJECTIVES

To build alliances with Canadian marketing agencies that focus on the real estate, construction, education, industrial, and tourism sectors, and with 3D game developers, providing premium outsourced VR and AR development services.
