ABOUT US

GreenSQA provides full-software-cycle testing and quality assurance services for desktop and mobile applications. With over 15 years' experience, we have successfully completed over 15,000 projects for large enterprises and software development companies. We offer a highly developed skill-set, a customer-oriented approach and well-organized testing processes gained from in-depth industry knowledge across multiple areas.

OUR OFFER

We offer accurate, rapid and cost-effective software and automation testing services to ensure that our clients achieve reliable and predictable deployment and release readiness.

OUR CLIENTS

We have delivered successful projects for Avianca Airlines, Bizagi, Carvajal S.A., Colombian Central Bank (Banco de la Republica), Carvajal, Terpel and Nueva EPS.

OUR OBJECTIVES

To build alliances with other medium or large Canadian software companies to provide outsourcing testing services and to partner with Canadian technology companies to provide software testing services.

Global Affairs Canada / Affaires mondiales Canada
