ABOUT US

DMS Solutions delivers intelligent automation solutions. We leverage machine learning, natural language processing and artificial intelligence to build a powerful digital workforce for our customers. With a focus on exploring new ways to apply disruptive technologies and the implementation of current inventions and innovations, we break boundaries and help clients to achieve their strategic goals through cutting-edge solutions.

OUR OFFER

Our team of highly-skilled and experienced engineers are committed to delivering exceptional RPA and intelligent automation services, solving our clients' toughest efficiency challenges. We leverage an advanced stack of technologies and apply a best-in-class delivery approach to provide measurable, high-quality results that enable even the most ambitious corporate goals with next-level AI solutions.

OUR OBJECTIVES

To identify potential process automation clients in Canada among large enterprises in logistics & distribution, finance/insurance, oil & gas, as well as management consulting partners who want to offer next-gen solutions.

OUR CLIENTS

Our high-performing clients hail from a range of industries including: banking, insurance, logistics, retail, manufacturing, supply chain, etc. DMS Solutions has worked with internationally recognized companies such as: Fossil Group, Hactl, MOL Consolidation services, Ukrainian International Airlines, Alpen Pharma, and Polpharma, as well as with leading companies in the Ukraine and Hong Kong including: State Saving Bank of Ukraine, Kredobank, Zung Fu and METRO Sourcing, among others.
