ABOUT US

Edsson is a global provider of high-end software development outsourcing services. We offer highly-skilled experts, cost-effective solutions, and an understanding of the needs and business expectations of clients in North America and the EU, in the public sector and across a range of industry verticals.

OUR OFFER

Our unique platform provides access to specialized, dedicated teams of highly-qualified experts in software engineering and advanced mathematics, including: predictive analytics, character and image recognition, custom mathematical algorithms and machine learning technology, among others. Our platform enables customers to browse profiles, select the experts they wish to engage with, communicate directly with developers, and access detailed work reports. We simplify access to leading-edge digital solutions.

OUR OBJECTIVES

Edsson is seeking large Canadian software development partners who want to add to their advanced solutions teams. We are also interested in providing start-up prototyping, as well as services to medium and large enterprises.

OUR CLIENTS

EDSSON currently supports over 50 clients, including independent software vendors such as: NCR Corporation, TransTrack International and Hacousto; start-ups such as: Convergate History Search, Online Golf Systems and Zest Golf; and the IT Departments of large international companies including: BDO; OSI group and Enza Zaden.
