## ABOUT US

Inoxoft provides IT outsourcing services including web, cloud and mobile software development, with the ability to deliver targeted business analysis and flawless UI/UX design. Our team of nearly 100 experts succeed in multiple IT-enabled industry verticals, including IoT, e-commerce, healthcare, fintech and education. We are driven by the desire to add value, using cutting-edge technologies and sophisticated business approaches.

## OUR OFFER

Inoxoft enables SMEs and start-ups to develop IT solutions from the ideation stage to launch, providing detailed business analysis, UI/UX design, development, testing, and devops. We meet tough deadlines, saving our clients time and money, while creating unique and competitive solutions.

## OUR CLIENTS

Inoxoft has an exceptional track record of working with start-ups and SMEs in Europe, the US and Israel such as: SiTime, Beiersdorf, UC San Diego, Overops, V2, Chirpi, CloudBeats and Bloxlabs.

## OUR OBJECTIVES

To establish alliances with complimentary digital service agencies such as marketing firms, design studios and platform developers that require software development support, or are interested in mutual representation.
