ABOUT US

MindK offers web and mobile app development, quality assurance and devops services. Over the past decade, MindK has developed more than 120 complex B2B and B2C solutions in the e-commerce, financial services and construction sectors. Our coordinated teams include project managers, developers, designers, devops and QA engineers. At MindK, our goal is to help clients accelerate growth and innovation, boost operational efficiency and improve profitability and customer satisfaction.

OUR OFFER

Our passion for technology and years of experience in the IT industry is reflected in the professionalism of our team, enabling us to deliver predictable, repeatable results that exceed expectation, accelerating our clients' time to market and ensuring sustainable growth.

OUR CLIENTS

MindK's client base is global, including the US, EU and Middle East. We have built trusting partnerships with: Harrison Publishing House, CEMAsys.com, Reputation.com, Converze Media Group, Systemhus, Emerging Europe, EAGLE Promotions and others.

OUR OBJECTIVES

To explore partnerships with Canadian SMEs, particularly in the e-commerce and construction sectors, and to build alliances with digital agencies and technology companies to enhance their software development service capacity.
