ABOUT US

Solution Mentors is a software development and consulting company that helps entrepreneurs and start-up technology companies to prototype and build software products and platforms, specializing in leveraging Oracle databases and solutions. As Microsoft Partners specializing in C#/.NET and Azure, Solution Mentors can provide resources and development services to help software companies quickly expand and complete complex projects.

OUR OFFER

Solution Mentors provides a team of capable and competent software engineers that can design, develop, build or test prototypes, new modules or complete products, saving time on recruitment, reducing costs and improving our customer's technological solutions.

OUR OBJECTIVES

To work with Canadian IT companies in order to provide software development or team augmentation services, as well as offer services to digital agencies, web development and technology companies.

OUR CLIENTS

Solution Mentors has worked with large American firms such as Versonix and Eccentex, as well as start-ups such as Storied.co.
