ABOUT US

Yuxi Global is a global, non-traditional tech company with 13 years of experience, that provides corporations with technology solutions combining data, machine learning, IoT integration, mobile apps and VR/AR integrated solutions.

OUR OFFER

We work with medium and large organizations to develop custom solutions that bring quick and measurable results. Innovation is at the centre of what we do - from the development of software for smart lockers at stadiums, to mobile apps for major banks in Latin America, to building world-leading sales coaching tools.

OUR CLIENTS

We have worked with major US based corporations & ISVs, including Quintiles, IMS, Apex Supply Chain Technologies, Blue Loop, Surgent and BrainShark

OUR OBJECTIVES

To build alliances and partnerships with Canadian ISVs and medium/large digital agencies and to deliver unique enterprise solutions to Canadian and international corporations.
